Wondering

And I was wondering
If something in your heart made you sing
Like the sunlight brings the spring
Gotta gotta love everything
I only want the best
And I only want you
Cause girl you're just the one
That I can't refuse
I wanna try to surprise you
Light up your eyes too
If this is your dream
Than you'll see it coming true
And I was wondering
If something in your heart made you sing
Like the sunlight brings the spring
Gotta gotta love everything
Try and find it in your heart
I don't believe you find it hard
Love's not a tough start
Love's not a tough start
I think it's about time
That you don't hold back
Got such a warm smile
Don't let your feelings retract
What you wanna hear
Is what I wanna say
It's only better when you're close
It's even more lovely

Things That Never Change

Time on the wall keeps tickin' by
While thinking of you
Years go by I'm still in love
Do you remember all the good times
That we had
And all the stupid things we've done
Leaves start to fall turn yellow
Thoughts of you stuck in my head
We'll all grow up and see better days
Our feelings are not done yet
Not done yet ...
All the things that never change
All the things I want to say to you
Now we're just strolling down the street
So late at night
I can only hear your voice
You tell me all your feelings
You held them tight
Only hope you make the choice

I'll Be Right Over

I love the way you look when we both meet
I'd love to just sweep you off your feet
I can't stand not having you around
I love the way you make my name sound
I have all night I'll be right over ... yeah, yeah, yeah
Throw all your worries away tonight
I can't wait 'til we're together ... yeah, yeah, yeah
Cause ya know ya make me feel just right
See it in your eyes every night you're in my arms
Never seem to want to let that go
Your smile makes a world of difference to me
Just thought that I would let you know

A Moment Can't Wait

All the time that I spend with you
Is like time with you forever
Every moment that I'm with you
Ya know in my heart I'll treasure
When I look right into those eyes
I see dreams upon the mountains
If I were only to say one thing
It's you're everything I've wanted
Cause I'm in a place
Where a moment can't wait, no
To be with you
Time's passing by and it's not coming back now
For whatever you do

Times We've Been Thru

These are the days, I always will remember
This is the summer, The first time I met you
These are the days, I wish that I could freeze
These are the days, I never wanna leave
And it's almost time to see you
And I'll be right over to meet you
Never forget you baby
These are the times we've been thru
The times we'll ...
Never forget you baby
These are the times we've been thru
The times we've been thru
These are the days, I always will remember
This is the summer, I never will forget
This is the life, that I have always wanted
These are the days, I know I won't regret
